Dear friends of Saint Joseph's Middle School and ACES Xavier,

Did you know?

St. Joseph's offers:

- One of the **highest academic performance** ratings in the Valley: our test scores are 11% higher as compared to other private schools.
- **Faith based** Catholic education and environment.
- Daily instruction in the core subjects with an **emphasis on writing**.
- A math program that incorporates the **National Council of Teachers of Mathematics** standards.
- A **fine arts program** of art, band, orchestra and chorus that are recognized in their fields and consist of both **individual** and group **instruction**.
- A wide variety of **co-curricular activities**: from math club, school newspaper, art club, theater and forensics, to tackle football, basketball, track, softball and more!
- **State of the art** facilities: three computer labs as well as a new lab located in our Library and a completely renovated auditorium which includes stage lighting, seating and sound system.
- **New! Service Learning Curriculum**: where students learn to serve their community.
- Through generous donations and stewardship, several **private scholarships** along with the **ACES Xavier Foundation** make it possible to retain current and enroll new students showing financial need.

We offer an outstanding academic program in a safe and caring environment. In addition to these program options, our staff is a highly-educated group of educators who constantly strive to stay current in their field.

These same expectations are met when your child transitions to Xavier High School. Based on ACES high standards for academic excellence, faith formation and community service, Xavier high school was recently selected as one of **America's Top 50 Catholic high schools in the nation**.

Pass on the good news!!

Sincerely,
Brad S. Norcross
